

d

Boundary Fitting Models:

Area 1 (Interconnected):
 $H = 1.95 + (0.03) \cdot D + (0.0005) \cdot D^2$

Area 2 (Interconnected):
 $H = 1.95 + (0.03) \cdot D + (0.0005) \cdot D^2$

Feasible Vertices:
 Area 1: 78 points | Area 2: 78 points
