

d

Boundary Fitting Models:

Area 1 (Interconnected):

$$H = 2.09 + (0.08) \cdot D + (0.002) \cdot D^2$$

Area 2 (Interconnected):

$$H = 1.58 + (0.02) \cdot D + (0.0002) \cdot D^2$$

Feasible Vertices:

Area 1: 78 points | Area 2: 78 points
