

d

Boundary Fitting Models:

Area 1 (Interconnected):

$$H = 15.23 + (-1.49) \cdot D + (0.059) \cdot D^2$$

Area 2 (Interconnected):

$$H = 1.95 + (0.03) \cdot D + (0.0005) \cdot D^2$$

Feasible Vertices:

Area 1: 78 points | Area 2: 78 points
